### Power charge

Python & Django

HTML & CSS

JavaScript,

Leadership skills

### Languages

English **90%**

Bangla **95%**

Malay **20%**

### Passions

### About me

Software Engineering graduates passionate about Web development and app development. Online portfolio: <https://tausif-portfolio.herokuapp.com/>

### Education

I passed HSC(Higher Secondary Certificate) & SSC(Secondary School Certificate) from BMARPC Bangladesh Dhaka. Just finished my Bachelor of Computer Science (Software Engineering) at Universiti Teknologi Malaysia, Johor Bahru. With a CGPA of 3.30.

### Contribution

**Web-App:** I made a lot of websites Smart-e-learning is the biggest among them. In recent times I made I-notebook & portfolio using MERN stack technology. During my internship, I also made a few chatbots with the help of Python, Django, and Google's Dialog flow also contributed to the receiver(Twilio) and webhook.

**Testing:** In my last semester I explored software quality testing, and I tested one of my own projects by taking an SQA(Software Quality Assurance) course. And now I know how to do the work collaboratively and I can use GitHub, Gitbash, and every collaborative tool.
